

# MAXIMIZE YOUR RETURN OF INVESTMENT IN NEW EQUIPMENT WITH A STATE OF THE ART INSTALLATION

## SAVINGS DUE TO A STATE OF THE ART INSTALLATION ARE HUGE!

Telecommunication equipment cannot perform at 100% of their theoretical performances if installation and commissioning are not executed in accordance with the best practice. Keeping your network upgraded to the state of art technology is recommended but an optimized installation and tuning is mandatory otherwise part of your investment will be useless.

## A STATE OF THE ART INSTALLATION PAYS FOR ITSELF:

### Increases equipment efficiency

Reducing the power consumption and saving money with your local electricity supplier

### Increases network coverage

Reaching new users!  
Improving the audience!  
Improving customer satisfaction!

### Reduces downtimes

Increasing audience & advertisers!  
Improving customer satisfaction!

### Reduces the equipment repairs

Saving your money!  
Reducing the downtime!

### Reduces maintenance

Saving your money by reducing ordinary and extraordinary maintenance

### Increases equipment lifespan

Protect your investments!

### Increases signal quality

Improving customer and advertiser satisfaction

### Protects from lightning

Avoiding repairs!  
Saving your money!  
Reducing the downtime!

# NEXUM

A leading Italian System Integrator

# ABOUT THE COMPANY

Nexum is an Italian Telecommunication company focused on TV and Radio broadcasting systems. It is specialized in the design, system integration, installation and commissioning of small and large FM, DAB, ATV & DTV Networks, including satellite and terrestrial radio links.

## PORTFOLIO OF SERVICES

Nexum supports Broadcasters with the deployment of small gap fillers up to very large systems. Nexum provides turn-key systems or installation/tuning/commissioning of existing equipment. Our portfolio of services includes:

- Full design of FM/TV network
- Installation
- Site engineering
- Feasibility studies
- Site surveys
- Commissioning
- Training
- Coverage studies

## SUPPLY OF EQUIPMENT AND INSTALLATION MATERIALS

Deploying new systems, Nexum usually provides a recommended list of equipment and installation materials to be sourced locally (if available) or can supply them at a very competitive prices. Nexum long-term knowledge of the global market allows us to propose to our customers solutions with the highest quality/price ratio.
